To Whom It May Concern:

I am appealing a denial of access to public records.

On August 10, 2012, I filed a request for:

All documents relating to usage of Automated License Plate Recognition (ALPR) technology by the Executive Office of Public Safety and Security, including but not limited to documents indicating:

- scope of ALPR deployment;
- purposes for which ALPR technology is employed;
- means of handling and storing ALPR data;
- extent and timeline for ALPR data storage; and
- protocols and extent of ALPR data sharing between EOPSS and other government agencies.

I filed this request with the Executive Office of Public Safety. My request is now past due by more than six months. After repeated guarantees from various EOPSS representatives that the documents will be released "by the end of the week," I believe this constitutes an improper denial of access to public records.

I have enclosed the communications between myself and the Executive Office of Public Safety.

Sincerely,

Shawn Musgrave
